

# Hypertherm®

powermax®

## Plasma or oxyfuel: 7 reasons why plasma might be right for you

- **Better cut quality** – Plasma cuts have a smaller heat affected zone, less dross, and less warping.
- **Greater productivity** – Faster cut speeds and no preheat time boost productivity.
- **Lower part cost** – For multiple parts cutting, faster cut speeds mean more parts per hour.
- **Higher profitability** – Lower operating costs and greater productivity generate more profit for you.
- **Greater ease of use** – With plasma, there are no gases to regulate and no standoff required.
- **Increased flexibility** – Cut or gouge a variety of metals including stainless and aluminum. Plasma cuts stacked, painted, grated, and rusty metal as well.
- **Improved safety** – Powermax plasma systems use air, not highly flammable and unstable acetylene.

HANDHELD AND MECHANIZED PLASMA SYSTEMS FOR CUTTING AND GOUGING METAL

## UPGRADE YOUR PLASMA TO HYPERTHERM'S NEWEST TECHNOLOGY

Powermax30®	Powermax45®	Powermax65® <b>NEW</b>	Powermax85® <b>NEW</b>	Powermax1650®
Size and weight (20 lbs) provide excellent portability	The most powerful, versatile 1/2" system	200 V – 480 V, 1-PH 200 V – 600 V, 3-PH	200 V – 480 V, 1-PH 200 V – 600 V, 3-PH	Auto-voltage 200 V – 600V, 3-phase
Excellent arc visibility and access to hard-to-reach applications	Boost Conditioner™ compensates for power line fluctuations Superior cut quality with little dross	Smart Sense™ technology automatically adjusts gas pressure. Simplified control panel with LCD screen for easy operation.
